The Wadi Foquin (Narjes) Community Development Project was created through the partnership with Friends of Wadi Foquin (see www.friendsofwadifoquin.com). WFCDP is supported through the General Board of Global Ministries as Advance #3021565. Ata Manasra is the Coordinator for the project and Adel Hroub serves as the Youth Coordinator. They will provide us with updates on the challenges of Palestinian life in the village and larger West Bank — as well as updates on community development projects that need our support.
